International Conference on Artificial Intelligence in AgriTech Revolution

PSN College of Engineering and Technology

Springer

The International Conference on Artificial Intelligence and Agritech Revolution aims to bring together researchers, industry leaders, and policymakers to explore innovative AI-driven solutions for enhancing farm-to-consumer efficiency. The conference will focus on integrating Artificial Intelligence (AI) and the Internet of Things (IoT) in agriculture to improve productivity, sustainability, and supply chain management. Participants will engage in discussions on cutting-edge advancements, challenges, and the future of smart farming technologies.

This conference will be a premier forum for the presentation of technological advances and research results, evolving new concepts and research directions through panel discussions in the fields of theoretical and experimental Computational Intelligence, Computer Vision, Image, and Signal Processing. It will bring together leading engineers, scientists, and researchers from R&D laboratories such as DRDO, NASA, CSIR, ISRO, and academicians from universities and engineering institutes of excellence specializing in Computer Vision, Image, and Signal Processing, alongside experts from around the world.

Chief Patron

Dr. P. SUYAMBU Ph.D
Founder and Chairman,
PSN GROUP OF INSTITUTIONS

Chief Patron

Er.P.S.JAYARAM
Vice Chairman
PSN GROUP OF INSTITUTIONS

Patron

Dr. P. Selvakumar
Executive Director,
**PSN College of Engineering and Technology,Tirunelveli**

Guest Speaker

Prof (Dr).Samir Bandyopadhyay
Director,
Lincoln University, Malaysia

ICAIAR 2025
(Hybrid Mode)
